QPL - IPS - More Alphabet Soup

A new Qualified Products List (QPL) for Information Processing Systems (IPS) Security Containers has been released. This is QPL-AA-C-2786-4, dated March 8, 2023.

Federal Specification AA-C-2786 was revised in June 2020 with a few significant changes including standard sizes and replaceable doors. (See Government Security News No. 22, August 4, 2021)

American Made Safe and Security is the new addition to the QPL and their entry lists the four standard sizes. The rest of the included manufacturers

do not.

The other changes I see are some address changes and the entry for Trusted Systems has 29 models listed as opposed to the 35 models on the previous QPL.

A link to QPL-AA-C-2786-4 can be found below.

Regards,

Andy Dennison, CMST, CML
