

X-0 Parts		Fits:			
Part number	Item Name	X-10	X-09	X-08	X-07
KM-504068 ¹	X-10 Dial, Black	Y	Y ²	Y ³	
KM-504086 ⁴	X-09 / X-10 Dial, Gray	Y ⁴	Y ⁴	Y ⁴	
KM-504067	X-10 / X-09 Hub Assembly	Y	Y	Y ⁵	
KM-504085	X-09 / X-10 Dial Retaining Ring	Y	Y	Y	Y
KM-504069	X-09 Spindle		Y		
KM-524004	X-10 Spindle Assembly w/ Screw	Y			
KM-104017	X-10 / X-09 Tube Kit	Y	Y	Y	Y
KM-527100	X-10 Cable Assembly - Up to 4.5" Door	Y	Y ⁶	Y ⁶	
KM-521011	Short X-10 Cable Assembly	Y	Y ⁶	Y ⁶	
KM-527081	X-10 LCD Assembly	Y ⁷	Y ⁷	Y ⁷	
KM-505071	X -Series Stick-on Cable Guides	Y	Y	Y	
KM-107061	X-10 / X-09 Change Key	Y	Y	Y	Y
KM-9810004	Lubriplate Grease for X-10 Locks	Y	Y	Y	Y ⁸
KM-501024	X-09 LOBC Pin (Cover Pin)		Y	Y	

Notes:

¹ 504068 was the original part number for the same dial in gray. The color change came around February 2019. The new gray dial has a different part number.

² The black dial will fit the X-09, but it is not the proper color.

³ The black X-10 dial will work on an X-08, but only by using an X-09/X-10 hub with it.

⁴ The gray X-0 dial will fit the X-10, but the color should match the color of the existing dial ring. It will fit X-09's and is the proper color. It will fit an X-08, but only by using an X-09 / X-10 hub and will be the wrong color.

⁵ The hub for the X-09 and X-10 will fit on an X-08, but must then be used with a black X-10 dial.

⁶ The replacement cable assemblies will fit X-09 and X-08 locks, but the included plastic cover will not fit. The lock's old part must be re-used.

⁷ The X-10 LCD has a light in it. The assembly will fit in any X-10, X-09, or X-08, but the light only works on X-10's manufactured after March 25, 2014 unless other parts are also replaced.

⁸ The original lubricant for the X-07 was silicone. It is no longer available, so using Lubriplate instead is acceptable.
